

## Focus Business: Instillo is one of the Growth Champions 2019

***Überherrn - Instillo GmbH is one of the growth champions of the year 2019. This is the result of a study in which German companies with the highest sales growth identified by the newsmagazine Focus together with the data company Statista.***

Dr. Bernd Baumstümmler presents the award documents

Source: Instillo GmbH

Instillo GmbH is ranked number 68 in the cross-industry including 500 enterprises. Furthermore, Instillo was selected as the fastest growing company in "Chemicals and Pharmaceuticals" sector, ahead of all other representatives in this field.

The founder and managing director of Instillo GmbH, Dr. Bernd Baumstümmler, reports about the gratifying performance: "After Instillo GmbH has already been honored as one of the 100 most innovative companies in Germany this year, it now fills us with pride and joy to be honored as the fastest growing company - to confirm that our business model coupled with the committed and competent work of all our employees also forms the basis for particularly impressive economic growth. Thus, I see the Instillo as one of the most successful and leading companies in Germany."

The top 500 growth champions list companies that achieved particularly high percentage sales growth per year between 2014 and 2017. Both

privately owned and listed companies were included. The companies must be independent (no subsidiaries, no branches), have their headquarters in Germany and have at least a turnover of 100,000 euros in 2014 and at least a turnover of 1.8 million euros in 2017. Statista has filtered out thousands of companies with above-average growth from more than 2 million commercial register entries. Many more were invited to apply for the 2019 Growth Championships. The companies listed in the Focus Top list receive the "Growth Champion 2019" award.

Focus Business "Growth Championships 2019" shows the top list of growth champions and describes how the listed companies were able to grow so successfully. In addition, the magazine analyzes the opportunities arising from the changes in the economy. Focus Business "Growth Championships 2019" appeared on October 16 in newsagents.

### **Growth Champions 2019: the competition**

Focus-Business, in cooperation with the market research institute Statista GmbH, presents for the fourth year in a row, the fastest growing companies in Germany. The list appears in the magazine Focus-Business. Statista creates a longlist with 12,000 companies from all high-growth industries. These companies are invited to participate in the competition. All data reported by the companies and self-researched within the scope of the competition will be checked and processed by Statista. Information from the online survey must be confirmed in writing by an authorized person of the company. The companies with the highest sales growth are the growth champions of the year.

### **About Instillo GmbH**

Instillo GmbH, founded in 2010, is the initiator of the Instillo Group with its group companies and specializes in the development and exploitation of highly innovative technologies. Core technology are microreactors focused on the development, testing and manufacturing of products for the pharmaceutical, cosmetics industries, biotechnology and food industries, as well as technical areas with a particular focus on the use of nanoparticles and microparticles. Instillo GmbH operates the Industrial Campus Überherrn in Saarland, where more than 60 highly qualified employees from various disciplines work synergistically in the individual group companies
